LEARN FUNCTION POINTS BY CORRESPONDENCE

FROM QUALITY PLUS TECHNOLOGIES, INC.

Do you want or need to learn the function point counting rules? Are your training needs immediate but there are no local IFPUG certified courses – or your organization can't afford to send you away to training?

We have **an immediate, cost-effective solution** for you!

Quality Plus Technologies, Inc. (QPT) now offers a "Function Point correspondence course" option for our regular two-day **IFPUG Certified Hands-On Function Point Analysis workshop (IFPUG 4.1 rules)**. Here's how it works:

- Register with QPT using the workshop [registration form](#) available from the QPT website (www.qualityplustech.com . Download the registration form for the 2 day Function Point Analysis training);
- Pay for the workshop fee; the correspondence course fee is the same as the on-site attendance, \$845. US.
- All workshop materials, binder, quick reference card, articles, case studies and case study answers are immediately priority mailed to you after we receive the fees.
- You can review the workshops materials at your own pace and keep track of any questions that arise as you go through the workshop.
- You are entitled up to two hours of professional consultation to go over your questions over the phone or by email from one of QPT's CFPS consultants who will be assigned to you. (You pay for the phone calls but are not charged any consultation fees). These can be scheduled for yours and the consultant's mutual convenience, or unscheduled (you may not get a quick response if the consultant is not available). If you choose to email instead, you will be provided with the consultant's email address.
- Your payment in full entitles you to later attend a "live" instructed public offering of the same workshop, **IFPUG Certified Hands-On Function Point Analysis**, at your earliest convenience, at **NO extra workshop fee** to your company, excluding travel expenses, etc. (I.e., you will still need to pay for your own travel and related expenses to/from the workshop. We would waive your onsite workshop fees!)

For more information about this exciting new way to obtain IFPUG Certified Function Point training from the industry leaders, please contact us at consulting@qualityplustech.com or 1-727-393-6048. We hope to hear from you soon!
